WORK EXPERIENCE

Software Engineer - Intern | *Sri Lanka Ports Authority* | 2024 Aug - 2025 Feb

- Developed an advanced prototype with a fully designed UI/UX, including complete navigations, to enhance the ongoing modules of SLPA.
- Developed a vehicle fleet management system for the Mahapola Ports & Maritime Academy, doubling efficiency in office transportation requests.
- Used React.js, Node.js, MUI and MySQL databases with version controlling technologies.

PROJECT EXPERIENCE

Online Vehicle Requisition System - MPMA | Sri Lanka Ports Authority

- Developed an online system for the vehicle requisition process with the use of javascript frameworks & MySQL databases
- The addition of new drivers, vehicles, requisitions, and routine schedules through the system, significantly reduced time consumption by 2X

Care Central | Inventory Management System for a private hospital

- Web application developed using React.js , Node.js,, Bootstrap and MongoDB with few other applications
- GitHub Link - [CareCentral-Hospital Management System](#)

MedMinder - Health Care App | Mobile App

- This project was done using Android Studio IDE with latest technologies
- ‘MedMinder’ enables users to schedule appointments, consult doctors, access electronic health records (EHRs) & receive medication reminders

Madewell.com - UI/UX redesign

- UI/UX re-designing project for a international textile shop called “Madewell”
- Used Mockflow to design low fidelity prototype (wireframes) and used Figma, Photoshop to design high fidelity prototype.
